FINANCIAL AID SCHOLARSHIP

For close to six decades now, the Ateneo College Scholarship Program for deserving but financially challenged students continues to thrive. Financial aid grants are awarded to students in all programs of study in the Loyola Schools. This may be a combination of:

- 100% in tuition and fees
- 75% in tuition and fees
- 50% in tuition and fees
- 25% in tuition and fees
- Book/Transportation/Internet allowance
- Food allowance
- Dorm assistance

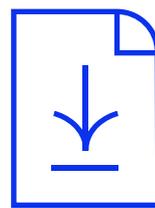

With limited slots each year, financial aid grantees are selected on the basis of the following criteria:

- Financial need as clearly evident in the scholarship/financial aid questionnaire
- Intellectual ability and proven consistent academic performance
- Service to the community and potential for greater service in the future

Scholarship and financial aid applications do not influence in any way the decision concerning acceptance into college. Applicants, therefore, should not wait for the decision on their application for admission before securing or submitting a scholarship form.

To apply for a scholarship/financial aid grant, please fill out the Scholarship/Financial Aid Questionnaire, which should be submitted together with the Application for Admission.

GENERAL INFORMATION

Depending on your school and graduation status, you will belong to a particular applicant type. This applicant type will determine your particular application pathway.

ELIGIBILITY (LOCAL)

You are considered a **first year college** applicant if you are still in the last year of or have already graduated from secondary education; or, you have not yet taken any college or university units/courses before and/or during the application period.

You are considered a local applicant if you are studying in, or have graduated from, a school inside the Philippines.

ELIGIBILITY (INTERNATIONAL)

You are considered a **foreign applicant** if you are studying in, or have graduated from, a school outside the Philippines.

TRANSFER APPLICATIONS

You are considered a transfer applicant if you have already taken units/courses in college or university.

Transfer applications will start in **November 2021**. There is a separate process for transfer applicants, which will be posted on apply.ateneo.edu/college

AB Management Economics

AB Management Economics is a program designed to provide a balanced foundation in both business and economics. The dual orientation is the strength of the program as recent events have shown that business survival depends on both sound internal management and a solid understanding of economic forces. In their senior year, students will undergo practicum in an accredited host training establishment. In addition to this, students pursue a strategic business project in which they are expected to apply not just management skills but also integrate concepts in economics.

- As economic researchers, analysts and managers by top local and foreign companies in banking and finance, sales and marketing, manufacturing
- In government, non-government organizations and multicultural institutions

AB History

History is the study of the continuity we share with all human experience, past and present. It also makes available to us a range of options as we deal with our present and with the future. Our students learn not only to understand our present society against the background of the past, but also to analyze how this understanding is itself shaped by changing contexts.

- In foreign service and diplomacy
- In law and politics
- In teaching and education
- In museums and cultural work
- Tourism and Heritage Management
- Research and Policy Formulation

AB European Studies

AB European Studies is a multidisciplinary program where students gain competence in a continental European language and analyze topics related to the political, economic, social, and cultural aspects of the European Union and its policymaking process. Special focus is given to the European integration process, as well as to the links between Europe and Asia. Students can take either of two Specialization: International Relations, or Business and Economics.

The European Studies Program has produced alumni that have ranked highly in the Philippine Bar exams, or have completed graduate degrees in prestigious universities around the world.

- In Foreign Service, international organizations, European embassies based in the Philippines, European firms and international NGOs based in Europe and the Philippines
- Stepping stone to law school and graduate school

AB Economics and AB Economics (Honors)*

AB Economics and AB Economics (Honors*) are programs designed to provide a strong foundation in theory and a discipline in quantitative methods to understand the operations of the modern economy, the processes of economic growth and development, and the dynamics of global integration. The courses are rigorous but practical enough to allow applied analysis. In their senior year, students will undergo practicum in an accredited host training establishment. Alongside this, they would culminate their studies by writing a thesis in which they apply concepts and techniques in economics.

- As economic researchers, analysts and managers in business (especially financial institutions) and private sector groups, government, non-government organizations and multilateral institutions
- As a pre-law course designed to better understand economic institutions and governance
- As teachers and researchers in the academe and international development organizations

AB Diplomacy and International Relations with Specialization in East and Southeast Asian Studies

This program is for students who envision a diplomatic career with the Philippine Department of Foreign Affairs (DFA), the ASEAN, the United Nations and its agencies, and other regional and international organizations. A specialization track in East and Southeast Asian Studies equips students with a multidisciplinary understanding of the region's history, culture, language, economic development, business and politics. Students also acquire 12 units in a foreign language, making them adept at conversing with other people from different places, backgrounds, and culture.

- Diplomatic careers in government
- In international and regional organizations

AB Chinese Studies

AB Chinese Studies—with tracks in Business, Humanities, and Social Sciences—equips its students with knowledge and skills that prepare them to become globally equipped. The program’s interdisciplinary approach to teaching gives students a better understanding of Chinese culture, its people, and language. Depending on their personal interests and career choices, students are afforded opportunities to deepen their understanding of China's history, foreign relations, economy, politics, and the nuances of its business culture.

The pursuit of a double major, combining AB Chinese Studies with other courses such as BS Management, Fine Arts, and History, among others, is also a very viable and practical study choice for a globally competitive graduate.

- In fields related to foreign service, tourism, translation, research work, theatre, teaching, creative writing
- Doing business either locally or internationally

AB Philosophy

AB Philosophy exposes students to critical and reflective thinking according to the traditions of the masters of this field. It is designed to train future academics and leaders in the art of philosophical reflection (thinking creatively, broadly, and deeply) and philosophical research (confronting national problems and issues in a rapidly changing world, understanding their roots, and proposing ways to realize the good). The AB Philosophy program is a designated Center of Excellence by CHED and has received a Certificate for Quality Assurance from the ASEAN University Network (AUN).

- In law, education, social development, human resources, and government service
- In banking, entrepreneurship, economics, and corporate leadership

AB Interdisciplinary Studies

AB Interdisciplinary Studies is highly flexible and is suited to the individual student rather than to the requirements of a traditional major. Students take courses from two programs of their choice. Students may create a combination from among history, psychology, literature, communication, political science, philosophy, management, among other disciplines. Essential to this approach is the individual direction provided to each student by an academic adviser.

- Stepping stone to law or business school
- In advertising, media, business, and government

BFA Creative Writing

BFA Creative Writing institutionalizes apprenticeship, the manner by which young writers learn their craft from more experienced writers, and the workshop, by which they learn from their peers. By putting these methods alongside the academic study of literary and critical texts, the creative process, and the pertinent contexts that influence literary production, the program aims to produce writers who are competent in the craft of their chosen genre specialty (fiction, nonfiction, poetry, or drama) while remaining aware of literature's place and influence in one's life and one's society.

- In publications as writers and editors
- In creative industry, public relations, and advertising as copywriters and content developers
- In media and entertainment as journalists, scriptwriters, and producers
- Academic careers as teachers of language and literature
- Stepping stone to law school

Dear Ateneo de Manila Freshman Applicant,

In the face of a prolonged pandemic, we all yearn for a return to normalcy. Yet even amidst continuing challenges, life goes on. Important decisions must be made, and at this point in your young lives, and that includes choosing a college, the next and possibly final step in your education. This is where I invite you to apply as a freshman at the Loyola Schools of the Ateneo de Manila University.

Every Ateneo freshman will face new challenges. You will meet new teachers and classmates, learn new subjects, find new opportunities through membership in student organizations. Despite entering our second year online, we maintain traditions of excellence and compassion. We continue to be a community of students, administrators, faculty, and staff. We will not stop finding new ways to teach and learn, not just to be a student, but as a man and woman for others. And when - not if - we return to the physical campus, we will bring all these lessons, and use them to build a stronger, more meaningful normal.

Most importantly, at the end of the day, our community remains in the service of the larger society. We invite you to be more than just Ateneo freshmen, but more importantly, lux-in-domino, Light in the Lord.

Come to the Loyola Schools.
Come to the Ateneo de Manila University.

Dr. Jose Maria Edito K. Tirol

Director

O.A.A.

MESSAGE
